

Oxnard Harbor District Recognized Third Consecutive Year

For the third year in a row the Oxnard Harbor District has received from the Work/LIFE Project of Ventura County the prestigious designation of “Ventura County Family-Friendly Employer”. The announcement was made at a ceremony held at the Spanish Hills Country Club on May 10. The District was one of 27 organizations that were honored at the special luncheon. The District award was accepted by Board President, Raymond E. Fosse.

The “Ventura County Family-Friendly Employer” designation is based on an employer’s commitment to its workforce. Selection is determined by very specific criteria that measures how an employer’s workplace practices and policies benefit its employees and their families.

The decision to honor the District was made a by the Work/LIFE Project of Ventura County’s Selection Committee whose members are: Ventura County Economic Development Association (VCEDA), Economic Development Collaborative - Ventura County (EDC-VC), Workforce Investment Board of Ventura County (WIB), Project Work/LIFE of Ventura County, Child Care Planning Council of Ventura County, County Board of Supervisors and members of the Work/LIFE Advisory Board. Selection Committee members based their decision to honor the District on the fact that the District provides a work environment that strengthens families and puts into practice employment policies that help families balance their work and home responsibilities.

“We are very pleased and proud to have been selected for a third consecutive year”, said President Fosse of the Board of Harbor Commissioners, “Selection for the designation of “Family-Friendly Employer” is not automatic”. Some of last year’s honorees were not honored this year. Every year the Selection Committee evaluates company and organizational policies for their ability to positively affect the lives of their employees and their families. The District shares the distinct honor of being recognized along with companies and organizations that are at the forefront of organizational development and who have over the years seized the opportunity to positively influence the lives of its employees and their families.
